

INSTRUCTIONS TO MAKE A CONSULTATION TO THE SINGLE REGISTRY OF OFFENDERS ENVIRONMENTAL - RUIA

The environmental infraction register (Registro Único de Infractores Ambientales) - RUIA, allows the consultation of environmental infractions or sanctions registered from the environmental infractions or sanctions registered from the Integral Window for Environmental Procedures Online (VITAL) of the Ministry of Environment and Sustainable Development. This consultation can be made by citizens or officials of the Environmental Authority. Each Environmental Authority registers the publication data of the sanction.

1. Objective

Describe the consultation process in the RUIA, by means of a step-by-step instructive that allows to carry out the consultation of the company's environmental infractions or sanctions.

2. Scope

These instructions will be applicable to persons who need to consult infractions or environmental sanctions of the company.

3. Definitions

Infringements: Any action or omission that constitutes a violation of the norms contained in the Code of Renewable Natural Resources, Decree-Law 2811 of 1974, in Law 99 of 1993, in Law 165 of 1994 and in other environmental provisions in force that substitute or modify them, and in the administrative acts issued by the competent environmental authority. It will also constitute an environmental infraction the commission of a damage to the environment, with the same conditions that are established in the Civil Code and complementary legislation.

Fine: It is an administrative sanction imposed on a violator of a rule, consisting of the obligation to pay a sum of money.

NIT: Tax Identification Number.

Penalties: Correspond to the consequence imposed on the violator of environmental norms, according to the severity of the infraction by means of a motivated resolution.

ANLA: Autoridad Nacional de Licencias Ambientales (National Authority of Environmental Licenses), is the institution in charge of projects, works or activities subject to environmental licensing, permits or procedures comply with environmental regulations, in such a way that they contribute to the sustainable development of the country.
